The Future Internet is one of the main driving forces of the innovation nowadays, and a key element of the deploying Internet Ecosystems and Networked Society all over the world. The 4th Hungarian Future Internet Conference is the national forum of the next generation Internet in Hungary in 2017 as the previous conferences in 2014, 2015 and 2016. The 4th conference also overviews the research trends of the Internet technologies and focuses on the Smart City issues, however the conference programme is extended into two days and an Smart City Exhibition is joined, providing a wider occasion to present research results, Smart City opportunities and challenges, plans and solutions, as well as for personal meeting of researchers, business experts and City leaders.

The joint event of the 4th Hungarian Future Internet Conference (in Hungarian: Magyar Jövő Internet Konferencia, MJIK 2017) and the Smart City Exhibition (Okos Város Kiállítás) will be held at November 8-9, 2017, and hosted by the main organiser Budapest University of Technology and Economics (BME) in the Central Building (1111 Budapest, Műegyetem rkp. 3.). The co-organisers of the MJIK2017 are the National University of Public Service (NKE), the Scientific Association for Infocommunications (HTE), the Future Internet National Technology Platform (FI NTP) and the Future Internet Research Coordination Centre (FIRCC). The Scientific programme is compiled by the NKE-BME Research Centre “Smart City – Smart Governance”.

The languages of the two-day event are Hungarian and English. The Conference is to have five sessions, the exhibition is open under and beyond the conference. The first day’s morning session is devoted to the Smart City trends, plans and experiments, the afternoon sessions to the Internet trends and research results. The second day is the review of the Smart City issues including strategic planning and best practices, societal impact and engineering solutions, as well as demonstrations of exhibited products.

Please register to the MJIK 2017 on www.hte.hu/mjik2017 without registration fee, from 15 September. The program of the Conference will be also shown on this site.

Looking forward to seeing you in Budapest

Budapest, 1 September 2017
