

Infocommunications Journal

A PUBLICATION OF THE SCIENTIFIC ASSOCIATION FOR INFOCOMMUNICATIONS (HTE)

March 2026

Volume XVIII

Number 1

ISSN 2061-2079

Authors, co-authors of the March 2026 issue	1
<i>PAPERS FROM OPEN CALL</i>	
Relay Pursuit-Vathana: A Novel Optimization Approach for Feature Selection in Software Defect Prediction <i>Rajakani M., Beulah Jeyavathana R., and Kavitha R. J.</i>	2
A New Deep Learning-Based Approach for IoT Task Offloading in Multi-access Edge Computing <i>Oussama Lagnfdi, Marouane Myyara, and Anouar Darif</i>	11
Enhancing Quantum State Transmission Fidelity through Quantum Orthogonal Frequency Division Multiple Access <i>Hussein Tuama, and Sándor Imre</i>	19
Beyond JA4+: Flow Statistics vs. TLS Fingerprinting for Encrypted Malware Detection <i>Márton Pál Lipcsey-Magyar, Attila Ármin Madarász, and Adrian Pekar</i>	27
Fuzzy Linguistic Signatures <i>Nour Ammar, and László T. Kóczy</i>	43
A Hybrid Syntactic–Statistical–Semantic Framework for Detecting AI-Generated Text Across Domains <i>Doaa Mostafa, Sally S. Ismail, and Mostafa Aref</i>	53
Content Credentials: Trust Issues, Technical Solutions and Future Perspectives Using Encrypted Metadata in Image Processing <i>György Wersényi, and Victor Koech</i>	62
Rate-Splitting Multiple Access for Satellite Short-Packet Communications: Finite Blocklength Modeling and Reliability Analysis <i>Sang-Quang Nguyen, and Chi-Bao Le</i>	71
Evaluating Data Transmission Performance in 5G mmWave Networks using Multi-Layer Transmission and MIMO Technology <i>John Baghous, and Mohamed Khaled Chahine</i>	79
A Review of Security Challenges and Intrusion Detection Mechanisms to Mitigate Sub-Optimization Attacks in RPL-Based 6LoWPAN IoT Networks <i>Angel D, and Dr. Robin Rohit Vincent</i>	90
Path Planning Transformer Supervised by Improved RRT* with Reduced Random Map Size for Mobile Robots..... <i>Aphilak Lonklang, and János Botzheim</i>	100
<i>CALL FOR PAPER / PARTICIPATION</i>	
IEEE WIMOB 2026 / 22nd International Conference on Wireless and Mobile Computing, Networking and Communications / Avignon, France	110
CNSM 2026 / 22nd International Conference on Network and Service Management Madrid, Spain	111
Special Issue / Data Science and Information Technology	115
<i>ADDITIONAL</i>	
Guidelines for our Authors	112

Indexing information

Infocommunications Journal is covered by Inspec, Compendex and Scopus.

Infocommunications Journal is also included in the Thomson Reuters – Web of Science™ Core Collection, Emerging Sources Citation Index (ESCI)

Infocommunications Journal

Technically co-sponsored by IEEE Communications Society and IEEE Hungary Section

Supporters

FERENC VÁGUJHELYI – president, Scientific Association for Infocommunications (HTE)

MTA200

HTE Infocommunications Journal welcomes the 200th anniversary of the Hungarian Academy of Sciences and gratefully acknowledges its continuous support of the journal in recent years.

Special Issue

of the **Infocommunication Journal**

Data Science and Information Technology

The topics include, but are not limited to:

Artificial Intelligence and its Applications • Stochastic Models in Data Science • Automata, Logic, and Models of Computation • Predictive Analytics • Cybersecurity • Temporal Data Science with Applications • Autonomous Vehicles and Embedded Systems • Virtual Reality and Its Applications • Software Technology • Internet of Things, Operational Technology, and Network Intelligence • AI Methods in Experimental Particle Physics

This special issue collects the latest results emerging on the field of Data Science and Information Technology.

Special Issue Editors:

Dr. András Hajdu

University of Debrecen, Hungary
hajdu.andras@inf.unideb.hu

Dr. Balázs Harangi

University of Debrecen, Hungary
harangi.balazs@inf.unideb.hu

TPC members:

Dr. Do Van Tien

Budapest University of Technology and Economics,

Call for Papers

Who we are

Founded in 1949, the Scientific Association for Infocommunications (formerly known as Scientific Society for Telecommunications) is a voluntary and autonomous professional society of engineers and economists, researchers and businessmen, managers and educational, regulatory and other professionals working in the fields of telecommunications, broadcasting, electronics, information and media technologies in Hungary.

Besides its 1000 individual members, the Scientific Association for Infocommunications (in Hungarian: HÍRKÖZLÉSI ÉS INFORMATIKAI TUDOMÁNYOS EGYESÜLET, HTE) has more than 60 corporate members as well. Among them there are large companies and small-and-medium enterprises with industrial, trade, service-providing, research and development activities, as well as educational institutions and research centers.

HTE is a Sister Society of the Institute of Electrical and Electronics Engineers, Inc. (IEEE) and the IEEE Communications Society.

What we do

HTE has a broad range of activities that aim to promote the convergence of information and communication technologies and the deployment of synergic applications and services, to broaden the knowledge and skills of our members, to facilitate the exchange of ideas and experiences, as well as to integrate and

harmonize the professional opinions and standpoints derived from various group interests and market dynamics.

To achieve these goals, we...

- contribute to the analysis of technical, economic, and social questions related to our field of competence, and forward the synthesized opinion of our experts to scientific, legislative, industrial and educational organizations and institutions;
- follow the national and international trends and results related to our field of competence, foster the professional and business relations between foreign and Hungarian companies and institutes;
- organize an extensive range of lectures, seminars, debates, conferences, exhibitions, company presentations, and club events in order to transfer and deploy scientific, technical and economic knowledge and skills;
- promote professional secondary and higher education and take active part in the development of professional education, teaching and training;
- establish and maintain relations with other domestic and foreign fellow associations, IEEE sister societies;
- award prizes for outstanding scientific, educational, managerial, commercial and/or societal activities and achievements in the fields of infocommunication.
